## Calidus takes key step towards production with appointment of experienced Chief Operating Officer

Strengthens team for ongoing PFS with parallel regional drilling  
commencing later this month

Calidus Resources Limited (ASX: CAI) is pleased to announce that it has taken another key step towards development and production at its Warrawoona Gold Project in WA with the appointment of experienced mining executive Paul Brennan as Chief Operating Officer.

Mr Brennan is a highly regarded Mining Engineer with a Graduate Certificate in Project Management and 20 years' experience in the mining industry. He also holds an MBA.

Most recently, he was General Manager of Saracen Mineral Holdings' (ASX: SAR) Carosue Dam gold mine in Western Australia, where he was responsible for the management of production, safety and financial reporting. Mr Brennan spent his earlier career in engineering and senior management roles at Gold Fields Ltd (NYSE: GFI) on the St Ives gold mine.

Calidus Managing Director Dave Reeves said Mr Brennan's appointment marked another milestone in the Company's strategy to bring Warrawoona into production.

*"Paul's skills and experience will be invaluable as we progress development of the 1.25Moz Warrawoona Gold Project," Mr Reeves said. "With drilling due to resume within a fortnight and the pre-feasibility study advancing well, we are set to generate strong newsflow over coming months."*
